East Texas State Fair
2112 W. Front St.
Tyler, TX

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners may bring water samples to the training to be screened for nitrate–nitrogen, total dissolved solids (TDS) and *E. coli* bacteria for \$10. Pick up approved sample containers with instructions at the [Smith](#), [Cherokee](#), [Wood](#) or [Rains](#) County Texas A&M AgriLife Extension offices.

Bring your samples and payment of \$10 to the training on March 2nd.

Each participant will receive free *AgriLife Extension* publications related to private wells and septic systems.

Pre-register for the workshop at

<http://twon.tamu.edu/training/> or call **979-845-1461**

Funding provided through a non point source grant from the Texas State Soil and Water Conservation Board.
