**Weekly Summary**

Compared to last week's market, all weight class price averages ended fully \$7 to \$10 higher. Slaughter cows and bull's prices continue to remain firm.

With the northern wheat calves moving off grass and into the feedlots, it appears the numbers are having no bearing on the bullishness of our feeder calf demand. Even with beef being the highest source of protein, it still reigns as king of the meats. Prices seem to keep gaining strength as all fundamentals of the beef complex appear solid.

### COMMENTS

Very good market today all across the board on calves and cows alike. The day started with outstanding demand for replacement cows from wet bag opens all the way to the pairs. Packer cows followed suit 5 dollars higher than last week. Calf and yearling market would be mostly steady with some better quality steers bringing 6 or 8 dollars better. Very good tickets on 4 loads of video cattle. Next week we will have 60 longhorn/corriente cross cows with some being pairs. We appreciate everyone!

**ATTENTION\*\* Starting immediately all cattle must be weaned a MINIMUM of 45 days and bulls must be castrated in order to qualify as "weaned".**
