Weekly Summary

Compared to last week's market, all class averages of both feeder steers and heifers ended fully \$12 to \$18 cwt higher. Slaughter cows finished a strong \$7 higher while the slaughter bulls remained firm, both on a lower volume offering.

What we witnessed today was the strongest figures ever offered. The bullish demand we have been waiting on appears to have finally arrived. Excellent winter pastures along with a diminished volume offering and availability have put the market demand in the strongest of position.

COMMENTS

Today we stacked them deep but didn't sell them cheap! We continue to see increased demand and an increase in prices across every class of cattle. A nice offering of bred heifers and replacement cows was met with big dollars. Packer cows would be steady to \$5 higher. Steer cattle would be \$10-\$15 higher depending on flesh and quality. Heifers would follow suit gaining 5-8 dollars. Cattle futures climbed all week, so if the weather and quantity stay on pace, we should expect a good spring for the cow man. We appreciate everyone and will see

you next week!

*****ATTENTION*****

Starting immediately all cattle must be weaned a MINIMUM of 45 days
and bulls must be castrated in order to qualify as "weaned."
