Weekly Summary

Compared to last week's market, all weight class price averages on both feeder steers and heifers ended fully \$4 to \$7 stronger. Slaughter cows today ended \$3 higher with the slaughter bulls being steady.

It appears the marketing numbers are weakening which fuels fire on the feeder calf demand. Buyers are stepping up their aggression and competition to fill their orders. Odds are the marketing numbers will continue to decrease pushing a already bullish market demand higher.

COMMENTS

Packer cows and bulls steady to 4 dollars higher. Outstanding market on the stock cows today through and through. On the calf and yearling side of things, we would see steer cattle go 5 dollars higher and heifer cattle lose 5 dollars. During last weeks sale, the gap between steers and heifers closed several dollars but returned this week. We have several more herds of cows coming over the next few weeks, if you have questions about buying or selling with us we would be glad to help! See yall next Wednesday!!

ATTENTION** Starting immediately all cattle must be weaned a **MINIMUM** of 45 days and bulls must be castrated in order to qualify as "weaned".
