Weekly Summary

Compared to last week's market, all class price averages of both feeder steers and heifers ended fully \$5 to \$8 lower with some plainer classes witnessing a \$12 drop. Both slaughter cows and bulls also showed weakness and trended \$5 lower.

The negative news about the "bird flu" continues to produce a huge wave of fear resulting in unstable board figures. The "paper traders" once again are showing hesitation in their trading contracts and this negativism is rippling throughout the industry. The fundamentals however remain solid for a continuing high feeder demand and prices.

COMMENTS

Light test on all classes of cattle today as the rain moved in on Tuesday. Yearlings and calves all 15 cheaper on plainer cattle and 5-10 on the better quality steers. Five to six hundred pound heifers holding market position the best overall. Packer cows and bulls would be several dollars cheaper as well. We had a nice ticket on multiple sets of pair cows and still strong demand for bred cows. A little sunshine and time will hopefully bring last months market back to life. We appreciate everyone and will see you next week!

****ATTENTION**** Starting immediately all cattle must be weaned a **MINIMUM** of 45 days and bulls must be castrated in order to qualify as "weaned".
