Weekly Summary

Compared to last week's market, the front-end of the feeder steers and heifers on all weight class average prices ended from \$2 to \$4 higher. The slaughter cow and bull figures ended stronger witnessing about \$3 higher.

The negative report about humans contracting the bird flu from infected dairy cows demolished the futures board yesterday and stagnated the feeder market. However the market has such a strong momentum today's board recovered much of the loss and we are continuing to see a strong demand and strong figures.

COMMENTS

After a wet Wednesday last week, receipts doubled and the market with-stood the pressure of falling CME. Calf market would be a little sporadic depending on the weight slot they fell in. Most classes would remain mostly steady except the 4 weight cattle that would be a little cheaper. Packer cows and bulls would be 5-10 cheaper. Stock cows and pairs are still very strong. We appreciate everyone today and will see you next week!!

****ATTENTION** Starting immediately all cattle must be weaned a MINIMUM of 45 days and bulls must be castrated in order to qualify as "weaned".**
