Weekly Summary

Compared to last week's market, both the lighter and heavier class price averages of both feeder steers and heifers ended fully firm except for the middle weight classes which finished around \$4 higher. Both slaughter cows and bulls also showed steady with last week's figures.

Feeder demand continues to remain bullish as anticipation of a Spring beef demand surge is eminent. Beef marketing remains strong and current as lower feeder offerings continue to force buyers to actually compete for inventory.

COMMENTS

Mostly steady market with softer buyer aggression would be today's headlines. Front end steers and heifers would hold strong with plainer cattle being 5 dollars cheaper. Short bred cows would be steady money with heavy breds and pairs slightly cheaper. Packer cows would be steady to 2 dollars higher with packer bulls 3-5 dollars cheaper. Volatile CMEs have everyone looking around wondering what will happen next. Luckily tight supplies are holding this thing together, but it is for sure stretching at the seams. Thank you everyone and we will see y'all next week!

ATTENTION** Starting immediately all cattle must be weaned a MINIMUM of 45 days and bulls must be castrated in order to qualify as "weaned".
