#### Weekly Summary

Compared to last week's market, all class price averages of both feeder steers and heifers ended fully \$4 to \$7 higher. Both slaughter cows and bulls also showed steady with last week's figures.

It appears the "paper traders" are milking this "bird flu" news in an attempt to create a negative market but the demand and lack of feeder calf inventory continues to drive calf prices higher. The momentum has continued to ward off any negative attempt to soften the market.

**Next Week: 95 Braford Pairs -Ages 4 to 7 years- Bred and calved to Black and Red Bulls**

**Also: 40 Crossbred Pairs -Ages 4 to 6 years-Bred Charlois and Angus**

**Also: 25 Braford Bred Cows – Ages 5-6 years bred to Black Bulls**

### COMMENTS

Thanks to the most resilient group of buyers in the country, this CME crash did not back anyone up. Major gains on most classes of cattle throughout the yearling market. Packer cows and bulls several dollars higher also. Shorter bred cows building a little momentum as the pair cows seem to be a little softer. Overall market health was very good in comparison to the nasty weather and CME. We appreciate everyone and hope to see you this Saturday at the Box "A" Ranch horse sale at 1:00!

**ATTENTION\*\*** Starting immediately all cattle must be weaned a MINIMUM of 45 days and bulls must be castrated in order to qualify as "weaned".
