**Weekly Summary**

Compared to last week's market, all classes of feeder steers and heifers' averages ended steady to firm. Slaughter cow figures backed off \$3 while the slaughter bulls finished \$4 stronger.

Last Friday's Cattle on Feed report showed higher than projected placements but the marketings were also higher. The report was classified as neutral with no effect on the marketing figures. The board has rendered positive figures the past several days again showing the optimism behind the traders attitude.

### COMMENTS

Today's calf market was a pleasant surprise as most all classes of cattle trended several dollars higher than last week. We have been fighting a volatile CME and very dry conditions for weeks now.

A positive market trend was a breath of fresh air. Stock cows are still in very good demand considering the lack of moisture. Packer bulls fairly steady and packer cows losing several dollars. Overall, a really good market for the week. Next week expect several large drafts of older cows. We appreciate everyone! See you next Wednesday!
